

NetAsset

**NetSuite-native
asset management**

Streamline and automate fixed asset management inside NetSuite

Managing fixed assets shouldn't be manual or error-prone, but many still rely on spreadsheets that add risk and slow the close process. NetAsset simplifies fixed asset management within NetSuite by automating accounting, tax, and compliance from creation to disposal. Helping free your team to focus on what matters.

Why teams choose NetAsset

Built natively for NetSuite

Track, manage, and report on every fixed asset inside your ERP — no add-ons, no external systems, and no third-party user interface.

Visibility across your asset lifecycle

Get live asset visibility, from CIP through disposal, with reporting that supports forecasting and audit readiness.

Custom depreciation and tax alignment

Support financial and tax reporting requirements with tailored depreciation methods and alternate schedules.

Automation that reduces effort

Accelerate high-volume tasks like asset creation, depreciation, and journal approvals to reduce manual work and human error.

CPA-built for real-world needs

NetAsset is backed by a team of CPAs who understand the intricacies of asset accounting and compliance.

Control across entities and locations

Manage intercompany transfers, foreign currencies, and subsidiary-level reporting with built-in consolidation tools.

Fixed asset accounting that scales with you

Bulk asset creation and depreciation

Perform large-scale tasks in a few clicks, including asset build-ups and journal entry processing.

Project-level CIP tracking

Track construction in progress (CIP) with full visibility into cumulative costs before assets go live.

Intercompany asset consolidation

Streamline asset transfers and eliminations across entities without losing data integrity.

Audit-ready reporting

Roll-forward and reconciliation reports are built in — no templates or spreadsheets required.

Physical asset tracking

Link assets to employees, locations, and departments to keep records clean and audits simple.
