

Reimagine your month-end close with Netgain

Smarter, faster, stress-free

Month-end shouldn't mean late nights, manual errors, and endless reconciliations. It's time to modernize the way you close your books with Netgain. Our suite of solutions is designed to simplify and automate your financial processes without leaving NetSuite — giving you more time to focus on strategic, high-impact work.

Whether you're an accountant bogged down by repetitive tasks or a controller managing tight deadlines, Netgain has the tools to make your close faster, more accurate, and less stressful. Let's take your month-end from chaos to confidence.

Take control of your close

NetClose

Streamline every step of your close process with automation and visibility:

- Automate reconciliations and journal entries to save time
- Real-time dashboards track progress, helping you to stay on schedule
- Improve data accuracy by keeping the close process in NetSuite

Close faster with more confidence in your numbers
